EXECUTIVE SUMMARY

Operations specialist and systems builder combining frontline floor leadership with automated financial and workflow tooling. Proven track record of eliminating operational bottlenecks, cutting \$35,000 in food waste, reducing employee training ramp by 43%, and increasing peak shift sales by 12% without price discounting. Designs proprietary browser-based software to eliminate labor waste, automate cash flow modeling, and protect unit-level gross margins.

SYSTEMS & PRODUCT ARCHITECTURE

Consultant Studio • *Founder & Systems Architect*

2024 – Present | Tallahassee, FL

- **Architected browser-based cash flow and P&L diagnostic models** for small business operators, automating 13-week projections with zero recurring software hosting costs (\$0 cloud compute).
- **Engineered automated 1-click deliverable pipelines** exporting formulated Microsoft Excel (.xlsx), Word (.docx), and presentation decks (.pptx) directly from local browser memory with zero third-party data leakage.
- **Deployed real-time Breakeven Sensitivity Studio** allowing operators to simulate rent elasticity, COGS inflation spikes, and labor efficiency variances across M0–M12 projection curves.

PROFESSIONAL OPERATIONS EXPERIENCE

Ma's Diner • *Operations & Growth Specialist*

Oct 2023 – Present | Tallahassee, FL

- **Re-sequenced kitchen expo handoffs and reduced order wait times by 90 seconds**, increasing peak shift revenue by **\$2,200 (12% gross sales lift)**.
- **Cut annual food costs by \$35,000 (4.2% of COGS)** by establishing real-time waste tracking and recalibrating portion sizes across 3 high-volume dayparts.
- **Executed an 8-week local customer acquisition campaign** that increased weekday foot traffic by **25%** while maintaining **100% full-price menu margins** (zero promotional discounting).

Walk-On's Sports Bistreaux • *Operations & Shift Coordinator*

Jun 2021 – Feb 2024 | Tallahassee, FL

- **Standardized line-cook cross-training**, cutting new-hire onboarding from **14 shifts to 8** while maintaining a **98% order accuracy rate** during \$8,000+ weekend services.
- **Reclaimed 22 minutes of idle labor per shift** by restructuring end-of-day closing procedures, reallocating **\$18,000 in labor value** toward next-day lunch prep.
- **Supervised floor seating logistics and directed 10 to 60 concurrent off-premise orders** during peak game-day rushes with zero fulfillment errors.
- **Mentored 15+ frontline team members** across host, expo, and kitchen stations, standardizing shift handovers to cut inter-station communication errors by 50%.
